Top Whom It may Concern,

I have known Ovando Carter since May 2022 when he first approached Sydenham School with a view to running his Parkour classes on the school site. One of the first things Ovando had to do was present his vision to the Head Teacher and HR Director and he made from the very outset, an extremely positive impression. Since then, Ovando has been an excellent partner to work with.

Ovando is not only collegial and very pleasant to work with, he is thoroughly professional. From a safeguarding perspective, his Child Protection policy, Risk Assessment and background checks for himself and his partners are extremely robust and certainly more than adequate to satisfy the high standards set by the KCSIE guidelines.

Ovando has a hugely impressive CV and is an excellent ambassador for Parkour, which has grown greatly in popularity over recent years. His sessions are very well structured and safety is at the core of how the sessions are delivered.

I would have no hesitation in recommending Ovando Carter and the London Parkour Project.

Yours faithfully

David Allan
